

How to Leave an Amazon Review

If you liked my book, *The Conch Killers*, I would appreciate it if you would go to Amazon.com and leave a review. The more people that leave good reviews on Amazon.com, the higher an author's book will be rated. Plus, the more times it will show up in the Amazon search engine.

How do you do that? Simple.

1. Go to <http://www.amazon.com/>
2. Near the top of the page, to the right of the Amazon logo, there is a link that says
Hello. [Sign in](#) to get personalized recommendations. New customer? [Start here](#).
3. If you are have a current Amazon account, go ahead and sign in. If you do not have an Amazon account (and you *should*), follow the link and create one.
4. Once you have signed in, in the Amazon search bar, type in **The Conch Killers**.
5. You will see two different versions of the book appear. One is the Kindle version. This is Amazon's wireless reader. You will also see a paperback version show up. Click on the paperback version.
6. When the book's site appears, scroll down to the bottom of the page and you will see two headings.

One looks like this:

Rate This Item to Improve Your Recommendations

I own it ★★★★★ I love it

In this heading, you first click on the number of stars you rate the book, five stars being the highest. Then click on the box that says, "I own it."

The next, and most important heading, is:

Customer Reviews

There are no customer reviews yet.

[Create your own review](#)

By the time you receive this e-mail, there may or may not be a review. What is important is to click on the button that says, "Create your own review."

7. From this point, you just type in your comments. The box for a title to your review looks like this:

3 Please enter a title for your review:

In this space, you put something in here like, “This book changed my life forever” or “Giles is the funniest author I’ve ever read.” OK, that is a little bit of an exaggeration, but you can title your review whatever you like.

8. Then you preview your review and submit. It’s that simple.

Customer reviews are actually very important on a number of levels. It helps authors who write good books get more exposure. It helps Amazon sift through MILLIONS of books and recommend the better ones. It also helps prospective customers see what other readers thought of the book. I hope you liked my book and will take a moment to leave a review.
